Hello. I'm going to show you how to switch user profiles. The idea is that we have two profiles that are part of one group. The group contains reusable content that applies to each profile.

In this case we're in Gerda's profile and you can see there are three shared tiles from the group, namely activities, food and drinks, and staff. Gerda's personalized tile is dog.

If we switch to another profile we click at the top right. Then we see user profiles and we click on that. Then we see that we also have Henk's profile. If we go to Henk we see the first three tiles are exactly the same. They are part of the group or department. So Henk has two extra personalized tiles, namely sports and cycling to.
