Hello, I'm going to show you how to switch between different profiles within the app.

Suppose you have an organization account with multiple profiles under it. Then you can switch between different profiles by clicking on the profile picture at the top right. We're currently in Jan's profile, but if we click on that and then go to user profiles, we see that in this demo organization there are different people, and we can easily switch to Miep to then see Miep's personalized tiles.
