Hi, I'm going to show how you can customize a tile so you can have a sentence spoken. Here you see the word taxi, and if I click on it, we hear the following.

But I'd like a sentence to be spoken. What we can do then is change this via edit mode. We click the blue icon at the top right.

Then we click start editing. And if we then click the three dots here on taxi, we can change here what should be spoken. So we can say: I want to order a taxi.

And then we can save this, and that's how we can customize the speech. If we then exit edit mode and we click on taxi, we hear the following: I want to order a taxi.
