Hi. I'm going to show you how to set a dark theme for the app. We go to settings, so we click on our profile picture in the top right. Then we go to app settings.

If we scroll all the way down, we see appearance there. And we can click on that. We can choose light or dark.

If we switch to dark, it looks like this. If we go back, you'll see everything is displayed in dark. So this is how you can choose between light and dark theme.
