Step-by-step instructions

1

Open the app settings

Tap the profile icon in the top right and choose **App settings**.

2

Open Language

Scroll down and tap **Language**.

3

Choose a language

Search or pick the language you want to use. All text changes immediately.

4

Check the content

Go back to the app. The content is now shown and spoken in the chosen language.

Hi everyone. I'm going to show you how to switch languages in the app. First, we go to the settings. Then we see a profile icon in the top right. If we tap it, we can go to app settings.

When I tap that, we can scroll down a bit until we see language here. And when I tap it, it's currently set to Dutch. When I tap it, you can basically see all kinds of options. You can search. We have several languages.

If I want to switch to English, for example, we see that all the text has changed. When I go back to the app, you'll also see that all the content text has changed to the language you've set.
