Hello, I'm going to show you how to open a video tile.

Here we see two tiles, and the right one is a video tile. And what we can simply do is click on it.

And then the video opens full screen and we can see the video. What we can do is pause it down here.

And then we continue playing. At the top right you could close it if you want.

And the video automatically continues. We can close it, and that's simply the video tile.
